Website Design & Development

Proposal and Memorandum of Understanding

Prepared for

MV 73 Design Studio

Prepared by

Aditya Kumar, Founder and CEO, WebSpider Solutions

info@webspidersolutions.com | +91 88510 71512 | webspidersolutions.com

Date: 28 October 2026

Validity: 15 days from the date above

1. Overview

MV 73 Design Studio is an architecture practice. The principal is both the architect and the auditor on projects. That mix is the strongest thing about the studio, and the current online presence does not show it.

This document covers the design and build of a new website for MV 73 Design Studio: a premium portfolio site that looks the part, explains what the studio does, and turns visitors into consultation requests. It also works as the MoU between both parties once signed.

What the website must do

- Look like a serious, premium architecture practice from the first scroll.
- Show the work: architecture and interior projects, presented properly.
- Make the "architect plus auditor" positioning clear, with a dedicated Project Audit service.
- Turn visitors into enquiries through a consultation form, WhatsApp and call buttons.
- Be fast, mobile friendly and ready to rank on Google for architecture searches.
- Be easy for the studio team to update: new projects, new blog posts, new photos.

2. Reference Websites Studied

We studied the two sites you shared. We will not copy either. We take what works from each and build a design that is original to MV 73.

Reference	What works well	How we use it for MV 73
acad.co.in	Clean, dark luxury look with large project images. Stats strip (years, awards, clients) near the top. Portfolio split into Architecture and Interior. Consultation form that asks for project type and land area.	Same premium feel, with our own colour and type choices. Stats strip built around MV 73 numbers. Portfolio filter for Architecture, Interior and Audit work. Consultation form with project type, plot size and location.
conceptspace.in	Wide range of services, each with its own page. Useful pages on Vastu and building bye-laws. Calculators (FAR, approval fee, construction cost). Clear "how we work" and client reviews.	A dedicated page for each core service, written for search. Blog covers Vastu, bye-laws and approvals, which brings in organic traffic. Calculators are offered as an optional add-on (Section 10). Process page and testimonials section.

3. Website Structure

One Home page and eleven inner pages, plus legal and utility pages that come free with the build.

No.	Page	Purpose
1	Home	First impression, services, featured work, enquiry

No.	Page	Purpose
2	About the Studio	Story, philosophy, team, values
3	Principal Architect and Auditor	Profile, credentials, registrations, approach
4	Services	Overview of everything the studio offers
5	Architecture Design	Residential, commercial and institutional design service
6	Interior Design	Concept to completion interior service
7	Project Audit and Consultancy	Design review, site and quality audit, compliance support
8	Portfolio	All projects with Architecture / Interior / Audit filter
9	Project Detail (template)	One layout used for every project: gallery, brief, specs
10	Our Process	How a project runs, from first call to handover
11	Blog	Listing page and post layout for articles
12	Contact	Consultation form, map, address, hours, WhatsApp
Free	Privacy Policy, Terms, 404 page, Thank-you page	Required pages, included at no charge

4. Page-by-Page Detail

Home page

- **Hero:** Full-screen hero with a strong project image, a one-line promise and a "Schedule Consultation" button.
- **Stats strip:** Years of practice, projects delivered, clients served and audits completed.
- **Introduction:** Short studio introduction with a link to the About page.
- **Services:** Architecture Design, Interior Design and Project Audit as three clear cards.
- **Featured projects:** Six hand-picked projects with project name, plot size and year.
- **Architect and Auditor:** A short section on why the principal works as both architect and auditor, and what that means for the client.
- **Process:** Four steps: brief, design, approvals, execution.
- **Testimonials:** Client reviews, with video testimonial support.
- **Consultation form:** Name, phone, email, project type, plot size, project details. Alerts go to the studio email.
- **Quick contact:** Floating WhatsApp and call buttons on every page.

About the Studio

Studio story, design philosophy, what makes the practice different, the team, and a short values section. Ends with a consultation prompt.

Principal Architect and Auditor

A personal page for the founder: photo, background, council registration and credentials, the kind of projects handled, and how the dual role of architect and auditor protects the client on cost, quality and compliance. This page builds trust faster than any other.

Services

Overview page linking to each service, with a short description and a clear next step for each.

Architecture Design, Interior Design, Project Audit

Each service page follows the same structure: what it is, who it is for, what the client gets at each stage, a sample project, common questions and a consultation button. Written in simple, search-friendly language so each page can rank for its own keywords.

Portfolio and Project Detail

Portfolio is a clean grid with filters. Each project opens on a Project Detail page with a hero image, short brief, plot size, location, year, scope, image gallery and a "Start a similar project" button. Six sample projects are loaded at launch; the studio can add more from the admin panel.

Our Process

A step-by-step page showing how a project moves from first conversation to handover, including approvals and audit checkpoints. This answers the questions clients ask before they call.

Blog

Listing and article layout with categories and easy publishing. Topics that work well for architects: Vastu basics, building bye-laws, approvals, material choices, cost planning and project stories.

Contact

Consultation form, studio address with map, phone, email, working hours, WhatsApp link and social links.

5. What Is Included on Every Page

- **Content writing.** Page-wise content: headings, body copy and calls to action written by our team in simple, professional language.
- **Custom design.** Original layout, typography and colour direction for MV 73. Not a template.
- **Responsive.** Looks and works properly on phones, tablets and desktops.
- **On-page SEO.** Meta titles and descriptions, heading structure, image alt text, schema markup, clean URLs and XML sitemap.
- **Speed.** Compressed images, lazy loading and clean code for quick load times.
- **Tracking.** Google Analytics and Search Console connected.
- **Lead capture.** Enquiry form with email alerts, spam protection and a thank-you page.
- **Easy editing.** Simple admin panel so the studio team can add projects, edit text and publish blog posts without a developer.
- **Security.** SSL setup and basic security hardening.

6. Technology

The site is built on WordPress with a custom-designed theme. This keeps the build fast, search friendly and easy for the studio team to manage. Hosting and domain stay in the studio's name.

7. Timeline

About three weeks from the day we receive the logo, photos and basic details.

Week	Phase	What happens
Week 1	Content and design	Content for all pages written. Home page design shared for approval.
Week 2	Build	All pages built, projects loaded, forms and tracking set up.
Week 3	Review and launch	Review round, fixes, speed and mobile checks, go-live.

Delays in sending photos or feedback move the timeline by the same number of days.

8. Investment

Item	Qty	Amount (INR)
Home page: design, build and content	1	3,000
Inner pages: design, build and content (₹1,500 each)	11	16,500
Privacy, Terms, 404 and Thank-you pages	4	Included
Total project cost		19,500
GST at 18%		3,510
Total payable		**23,010**

Additional pages beyond the twelve above are charged at ₹1,500 each (inner page) with content included.

Payment schedule

Stage	Share	Amount incl. GST (INR)
On signing this MoU	50%	11,505
Before go-live (after final approval)	50%	11,505
Total	**100%**	**23,010**

9. What We Need From MV 73

- Logo in high resolution and any brand colours or guidelines.
- Project photos and renders (at least six projects to start), with plot size, location and year for each.

- Principal architect's photo, background, qualifications and registration details.
- Studio address, phone numbers, email and social links.
- Client reviews or video testimonials, if available.
- Awards, publications or certificates, if any.
- One point of contact for feedback, with approvals in writing (email or WhatsApp).

10. Not Included, Available Separately

- Domain name and hosting (we can set up and guide).
- Ongoing SEO, Google Business Profile management, Google Ads and Meta Ads.
- Social media management and photography or video shoots.
- Calculators such as FAR, approval fee or construction cost.
- Vastu and building bye-law reference pages beyond blog articles.
- Photo editing and 3D rendering.

Any of these can be quoted when you are ready.

MEMORANDUM OF UNDERSTANDING

Website Design and Development

This Memorandum of Understanding ("MoU") is made on _____ 2026 between:

WebSpider Solutions, Delhi NCR, represented by Aditya Kumar, Founder and CEO ("the Agency"); and

MV 73 Design Studio, _____ (address), represented by _____ ("the Client").

1. Purpose

The Client appoints the Agency to design, write content for and build a new website for MV 73 Design Studio, as described in this document.

2. Scope of work

The Agency will deliver one Home page and eleven inner pages as listed in Section 3, plus the Privacy Policy, Terms, 404 and Thank-you pages. Scope includes page-wise content, custom design, responsive build, on-page SEO, analytics setup, enquiry form and a simple admin panel, as listed in Section 5.

3. Project cost

Home page ₹3,000 and eleven inner pages at ₹1,500 each (₹16,500), making a total of ₹19,500 plus GST at 18% (₹3,510), a total payable of ₹23,010.

4. Payment

50% (₹11,505 incl. GST) on signing; 50% (₹11,505 incl. GST) before go-live. The site goes live after the final payment is received. Payments are non-refundable once work has started, except where the Agency fails to deliver the agreed scope.

5. Timeline

About three weeks from receipt of the logo, photos and details listed in Section 9. Client delays extend the timeline by the same period.

6. Client responsibilities

The Client will provide all required materials on time, nominate one point of contact, give feedback within three working days, and confirm that all photos, text and credentials supplied are owned by or licensed to the Client.

7. Revisions

Two rounds of revisions per page are included. Changes beyond the agreed scope, or new pages, are quoted separately at the page rate above.

8. Ownership

On full payment, the website design, content written for it and all supplied material belong to the Client. The Agency may show the finished site in its portfolio unless the Client objects in writing. Third-party plugins and fonts stay under their own licences.

9. Support

The Agency will fix bugs and errors in the delivered work free of charge for 30 days after go-live. Later support and maintenance can be agreed separately.

10. Confidentiality

Both parties will keep each other's business information confidential and use it only for this project.

11. Termination

Either party may end this MoU with seven days' written notice. The Client will pay for work completed up to that date.

12. Governing law

This MoU is governed by the laws of India. Any dispute will first be settled by discussion, and failing that, in the courts of Delhi.

Acceptance

By signing below, both parties agree to the terms above.
